

## PROFESSIONAL WETLAND TRAINING

### LEARN HOW TO:

- IDENTIFY AND DOCUMENT "WETLANDS" FOR ANY PROJECT.
- PROPERLY FLAG/MARK THE LIMITS OF "WETLANDS" IN THE FIELD, FOR ANY PROJECT.
- WRITE & REVIEW WETLAND DATA SHEETS, FOR ANY PROJECT.
- WRITE & REVIEW WETLAND REPORTS, FOR ANY PROJECT.
- APPLY FOR STATE AND FEDERAL PERMITS, FOR ANY PROJECT.

### 3-DAY COURSE ITINERARY:

1-DAY LECTURE & 2-DAYS FIELD WORK

WE EMPHASIZE REAL-WORLD FIELDWORK.  
YOU WILL GET 2 FULL DAYS OF ACTUAL, REAL-WORLD FIELD WORK...WALKING SITES, MAKING "DETERMINATIONS", DIGGING HOLES, ID'ING PLANTS, AND FILLING OUT WETLAND DATA SHEETS & PREPARING REPORTS.

**WARNING:** YOU WILL GET DIRTY. IT'S PART OF DOING THE JOB THOROUGHLY AND CORRECTLY.

# WETLAND DELINEATION CERTIFICATE

## 3-DAY (24-PDH)

Our 3-day Wetland Certification Course (24-PDHs) is based upon the current Federal guidance for field identification of wetlands in the United States. This course satisfies the requirements for basic wetland delineation training as specified by the United States Army Corps of Engineers (USACE). Wetland Boot Camp teaches technical guidelines for wetland delineations, field indicators of hydrophytic vegetation, hydric soils, and wetland hydrology and covers all topics included in the ACOE's Reg IV Training.

Suitable for those wishing to become Wetland Delineators, performing fieldwork and writing Reports. Also suitable for non-field workers that are looking to gain in an depth knowledge of how Wetland Reports are prepared, and how wetlands are identified in the field.

## COURSE TOPICS INCLUDE:

- History of the Laws & Guidance that govern wetland delineations
- Field Indicators for Wetland Soils
- Field Indicators for Wetland Vegetation.
- Field Indicators for Wetland Hydrology
- Determining Limits of Wetland Boundaries in the Field
- Proper filling-out of the Wetland Data Sheets
- How to write and review Wetland Data Reports.
- Intro to Field Identification of Streams
- All topics included in the ACOE's Reg IV Training.
- All topics included in similar 36-hour trainings.

## ABOUT US:

for over a decade Wetland Boot Camp has been offering professional wetland training to public, private, and government agencies. Our intensive 3-day courses are regularly hosted and attended by State and Federal agencies, providing a fast and efficient way for their staff to identify wetlands with ease in the field.

In fact, many government employees who took our course *and the ACOE's Reg IV course* overwhelmingly preferred our method, saying it is much quicker and easier to learn.

We are so proud to say that since 2014 100% of all our Alumni have reported that "they can now identify wetlands in the field, based upon our 3-day course."
